

Parallel Park

- 1**
- Signal left at least 3 seconds before stopping next to the vehicle.
 - Approach vehicle straight while being at least one arm length out from target vehicle.
 - If the target vehicle is small, stop your vehicle where their side mirror is adjacent to you.
 - If the target vehicle is big, stop your vehicle where their side mirror is adjacent to your side mirror.
 - Put car into reverse and tilt left side mirror down.
 - Look all around the vehicle to make sure it is safe to proceed - 360 degree scan.

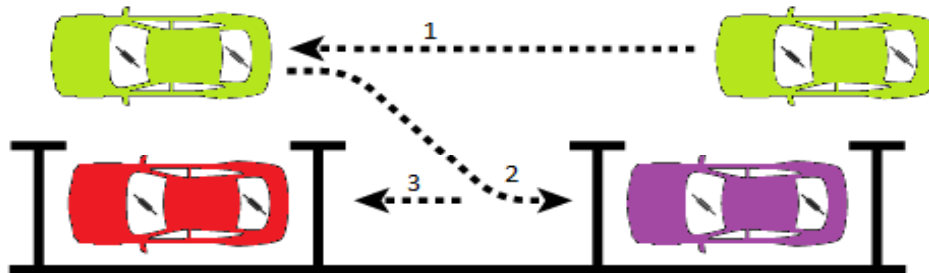

- 2**
- Start moving the car rearwards until your mirror reaches there back door
 - Turn steering wheel one complete 360 degree turn to the left.
 - Reverse slowly till the vehicle reaches 45 degree position.
 - Turn steering wheel two complete 360 degree turns to the right.
 - If further away from the curb than planned, delay between the above 2 turns.
 - Slowly reverse backwards till the rear of the vehicle looks like it is touching the kerb in your side mirror.
 - Reverse slowly backwards to bring the nose of the vehicle in towards the kerb (increase the turn to the right if it looks like you are going to touch the kerb with your rear tyre).

- 3**
- Turn steering wheel one complete 360 degree turn to the left.
 - Move the car forward, until you see where the rear tyres of the car in front touches the ground.
 - Park/Neutral and hand brake on and raise the left side mirror.

Points testing officer is looking for

- Signal left at least 3 seconds
